# 1 - INTRODUCTION

For more than 70 years, OCEAN REEF has been involved in the underwater diving industry. We have contributed much to this industry, from fins and snorkels to the most modern systems of underwater communication. Through the spirit of intrepid pioneers, brilliant inventors, passionate divers, and dynamic entrepreneurs, OCEAN REEF has been able to turn dreams into reality in the underwater world.

If you lose this manual or if you should require more copies, it is possible to download at diving.oceanreefgroup.com/support/ or contact the Manufacturer: Mestel Safety SRL, Via Arvigo 2, 16010 Sant'Olcese (GE), IT. Phone: +39 0107082011. E-mail: infoitaly@oceanreefgroup.com. Website: [diving.oceanreefgroup.com](https://diving.oceanreefgroup.com)

The Manufacturer has carefully worded and edited this owner's manual. However, in no event the Manufacturer will be responsible for any damage caused by text misunderstanding, misprints and/or incompleteness.

The Manufacturer will not accept liabilities for any damage caused by:

- Insufficient, incorrect and improper maintenance, not following the plan described in this manual
- Absence of periodic tests and checks of the 2nd stage, not following the plan described in this manual
- Incorrect and improper use of both the Primary 2nd stage and each of its components
- Use of non original spare parts
- Not observance of prescriptions collected in the owner's manual
- Alterations and/or modifications of both the Primary 2nd stage and each of its components

In the above mentioned situation, being potentially dangerous to the health and life of the users, the manufacturer is released of any responsibility and the warranty is nullified.

The Manufacturer is certified ISO 9001:2015 ([https://diving.oceanreefgroup.com/support/#ISO\\_CC](https://diving.oceanreefgroup.com/support/#ISO_CC)).

## 2 - GLOSSARY

Note: fleeter can be used differently than the following description.

## 3 - GENERAL WARNINGS / OWNER'S AND USER RESPONSIBILITIES

### WARNINGS, CAUTIONS, NOTES LEGEND

Pay special attention to information provided in warnings, cautions, and notes, that is accompanied by these symbols:

A **WARNING** indicates a procedure or situation that, if not avoided, could result in serious injury or death to the user.

A **CAUTION** indicates any situation or technique that could cause damage to the product, and could subsequently result in injury to the user.

A **NOTE** is used to emphasize important points, tips, and reminders.

### IMPORTANT

The content of this manual is based upon the latest information available at the time of going to print. OCEAN REEF reserves the right to modify any products, processes and manufacturing techniques at any time. It is the technicians' responsibility to acquire the latest information and parts from OCEAN REEF for service and repairs to be performed.

If the instructions provided in the manual are unclear or difficult to understand, please contact OCEAN REEF at [infoitaly@oceanreefgroup.com](mailto:infoitaly@oceanreefgroup.com) before using the equipment or attempting any repairs.

This instruction manual does not replace a diving course.

Carefully read this instruction manual before use, and keep it for future reference.

Before using this product, you must have successfully received training and certification in the technique of SCUBA diving from a recognized certification agency (or any U.S. Military or government operated diving school). Use of this equipment by a person who is not certified by a recognized agency shall render all warranties, express or implied, null and void.

The high quality of the product does not allow the user to ignore the problems connected with the correct use of the product and the rules for safe diving.

Entanglement danger is very high when diving with cabled equipment, make sure you are experienced in this practice, that you know the environment in which you are going to dive well, that you have a bailout plan in place, proper equipment to cut-loose if needed and experienced surface and dive support.

OCEAN REEF refuses all responsibility for damages caused by non-compliance with the instructions contained in this manual. These instructions do not extend the warranty or the responsibilities stated by OCEAN REEF terms of sales and delivery.

## 4 - USE AND TECHNICAL CHARACTERISTICS

Thread the cable(s) inside the fleeter up to intended location on cable length.  
Secure both loops (handles) to diver or intended location via carabiner (or other equipment) of suitable strength for needed application.

### KEY FEATURES:

- Continuous weave configuration
- No fraying wires
- Lighter and safer to handle
- Longer Life

MODEL	CODE	Lattice Length (mm)	Approx. Break Load (kg)
Cable Fleeter - (10-20 MM)	OR033148	552	1,115
Cable Fleeter - (25-38 MM)	OR033149	573	1,620

#UNDERWATERNATURALLY

## 5 - MAINTENANCE, CLEANING, DISINFECTION, AND STORAGE

### 5.1 MAINTENANCE, CLEANING, DISINFECTION

General and visual inspection are related to the check that all the components and parts are not damaged, without any wear and tear. No damages must be detected in order to use the product.  
Inspect prior to every use.

TYPE OF ACTION	FIRST USE	BEFORE EACH USE	AFTER A DIVE	MONTHLY
GENERAL FUNCTION CHECK	X	X		
GENERAL AND VISUAL INSPECTION	X	X		X
DISINFECTION		X	X	
CLEANING / RINSE			X	

Table 1: Periodic maintenance program

For optimum longevity of the product and the proper functioning of its parts we recommend rinsing the mask thoroughly in fresh water after every use.

Cleaning frequency must ensure to the user a good protection and the right functionality. When using any disinfectant, be sure to follow the manufacturer's instructions for use. Follow this with a thorough rinse in fresh water, and allow the equipment to dry completely before use. Since some chemicals can damage surfaces, they should be tested prior to use for each individual item or surface.

For an efficient cleaning of any part of the equipment, soaking in clean warm water (around 40°C/100°F) adding a colourless not perfumed hand washing liquid soap is suggested.

Afterwards, rinse deeply under fresh water to remove any soap residual and allow the perfect drying in a safe and clean environment.

### 5.2 STORAGE

The product should be stored in a ventilated environment preferably between -10°C (14°F) and +50°C (122°F), avoiding the direct action of sunlight, pollution, dirt, etc.

## 6 - WARRANTY

1. The OCEAN REEF primary second stage is guaranteed to be free of material or manufacturing defects for a period of 24 months from the time the unit is purchased.
2. For the duration of the above mentioned warranties, the Company's responsibility is limited to replacement of any parts that are defective and that have not been used incorrectly or handled negligently. The product must be returned to the outlet from which it was bought, along with the warranty card.
3. Even during the warranty period, this warranty shall not be valid where:
  - Damage was caused by incorrect handling or carelessness.
  - Damage was caused by the mask falling after it was purchased.
  - Damage caused by fire, earthquake, floods, lightning, or other natural disasters.
  - The product has been tampered with or has been repaired/serviced with non-original parts.

You can find a copy of this and other OCEAN REEF manuals online on our website. In order to limit our paper consumption, and as a part of our environmental friendly and responsible approach, OCEAN REEF recommends, in case you lose or damage this manual, to consult the documentation present online rather than print it out.
