1 - INTRODUCTION

For more than 70 years, OCEAN REEF has been involved in the underwater diving industry. We have contributed much to this industry, from fins and snorkels to the most modern systems of underwater communication. Through the spirit of intrepid pioneers, brilliant inventors, passionate divers, and dynamic entrepreneurs, OCEAN REEF has been able to turn dreams into reality in the underwater world.

If you lose this manual or if you should require more copies, it is possible to download at diving.oceanreefgroup.com/support/ or contact the Manufacturer: Mestel Safety SRL, Via Arvigo 2, 16010 Sant'Olcese (GE), IT. Phone: +39 0107082011. E-mail: infoitaly@oceanreefgroup.com. Website: diving.oceanreefgroup.com

The Manufacturer has carefully worded and edited this owner's manual. However, in no event the Manufacturer will be responsible for any damage caused by text misunderstanding, misprints and/or incompleteness.

The Manufacturer will not accept liabilities for any damage caused by:

- Insufficient, incorrect and improper maintenance, not following the plan described in this manual
- Absence of periodic tests and checks of the product, not following the plan described in this manual
- Incorrect and improper use of the product and each of its components
- Use of non original spare parts
- Not observance of prescriptions collected in the owner's manual
- Alterations and/or modifications of both the product and each of its components

In the above mentioned situation, being potentially dangerous to the health and life of the users, the manufacturer is released of any responsibility and the warranty is nullified.

The Manufacturer is certified ISO 9001:2015 (https://diving.oceanreefgroup.com/support/#ISO_CC).

OCEAN REEF joins with Innovative Dive Equipment to bring our customers their professional accessory mounting system. This mounting system is used to quickly mount, remove, and change, lights, cameras, HUDS, and other devices as the dive conditions dictate.

2 - GENERAL WARNINGS / OWNER'S AND USER RESPONSIBILITIES

WARNINGS, CAUTIONS, NOTES LEGEND

Pay special attention to information provided in warnings, cautions, and notes, that is accompanied by these symbols:

A **WARNING** indicates a procedure or situation that, if not avoided, could result in serious injury or death to the user.

A **CAUTION** indicates any situation or technique that could cause damage to the product, and could subsequently result in injury to the user.

A **NOTE** is used to emphasize important points, tips, and reminders.

IMPORTANT

The content of this manual is based upon the latest information available at the time of going to print. OCEAN REEF reserves the right to modify any products, processes and manufacturing techniques at any time. It is the technicians' responsibility to acquire the latest information and parts from OCEAN REEF for service and repairs to be performed.

If the instructions provided in the manual are unclear or difficult to understand, please contact OCEAN REEF at infoitaly@oceanreefgroup.com before using the equipment or attempting any repairs.

This instruction manual does not replace a diving course.

Carefully read this instruction manual before use, and keep it for future reference.

The high quality of the product does not allow the user to ignore the problems connected with the correct use of the product and the rules for safe diving.

Entanglement danger is very high when diving with cabled equipment, make sure you are experienced in this practice, that you know the environment in which you are going to dive well, that you have a bailout plan in place, proper equipment to cut-loose if needed and experienced surface and dive support.

OCEAN REEF refuses all responsibility for damages caused by non-compliance with the instructions contained in this manual. These instructions do not extend the warranty or the responsibilities stated by OCEAN REEF terms of sales and delivery.

3 - GLOSSARY

OR025270

Professional Accessories Mount Kit R+L (w/universal slide and clamping band)

OR025260

Professional Accessories Mount Kit R (w/universal slide and clamping band)

OR025263

Combo Mount on Universal Slide

OR025262

OCEAN REEF Scubapro Galileo HUD Extender Mount

OR025261

OCEAN REEF Shearwater Nerd2 HUD mount for FFMs.

Clamping band
use flathead screwdriver to open/close loop

Slide / button system

Universal slide, fits on accessory rail by sliding female on male.
Press button to release/slide and reposition.

GoPro compatible mount

Accessory Rail

●=Adjustment knob

Slide / button system

3.1 - Professional Accessories Mount Kit R+L (w/universal slide and clamping band)

OR025270

Scan QR code for tutorial
on Extender Frame disassembly

Extender Frame comes assembled with 2 Accessory Rails.

Assemble the Extender Frame on your Space or Neptune series mask (if present, remove previously mounted Extender Frame).

Follow this video tutorial:

<https://www.youtube.com/watch?v=PenP82Xh6xs>

Remove plate (2 screws).

Fit the clamping band with preferred orientation of tightening band screw.

Reassemble plate with screws.

Slide on the accessory rail with preferred orientation for button pressing.

We suggest use of tape on object on which the clamping band will tighten, to avoid damage.

Loss or damages to equipment assembled on the mounts is not covered by warranty and responsibility of OCEAN REEF.

The user takes full responsibility to ensure the accessories assembled on the mounts are secure and will not be damaged/broken/lost.

OCEAN REEF provides high quality, durability tested mounts but does not warrant the specific use, dive conditions (extreme temperatures, entanglement dangers, overhead environment, dangerous chemicals) that the user will expose them to.

3.2 - Professional Accessories Mount Kit R (w/universal slide and clamping band)

OR025260

Scan QR code for tutorial
on Extender Frame disassembly

Extender Frame comes assembled with 1 Accessory Rails.

Assemble the Extender Frame on your Space or Neptune series mask (if present, remove previously mounted Extender Frame).

Follow this video tutorial <https://www.youtube.com/watch?v=PenP82Xh6xs>

Remove plate (2 screws).

Fit the clamping band with preferred orientation of tightening band screw.

Reassemble plate with screws.

Slide on the accessory rail with preferred orientation for button pressing.

We suggest use of tape on object on which the clamping band will tighten, to avoid damage.

Loss or damages to equipment assembled on the mounts is not covered by warranty and responsibility of OCEAN REEF.

The user takes full responsibility to ensure the accessories assembled on the mounts are secure and will not be damaged/broken/lost.

OCEAN REEF provides high quality, durability tested mounts but does not warrant the specific use, dive conditions (extreme temperatures, entanglement dangers, overhead environment, dangerous chemicals) that the user will expose them to.

3.3 - Combo Mount on Universal Slide

OR025263

Shown as example of mount use with light and sport camera.

Remove plate (2 screws).
Fit the clamping band with preferred orientation of tightening band screw.
Reassemble plate with screws.
Slide on the accessory rail with preferred orientation for button pressing.
We suggest use of tape on object on which the clamping band will tighten, to avoid damage.

Loss or damages to equipment assembled on the mounts is not covered by warranty and responsibility of OCEAN REEF.

The user takes full responsibility to ensure the accessories assembled on the mounts are secure and will not be damaged/broken/lost.

OCEAN REEF provides high quality, durability tested mounts but does not warrant the specific use, dive conditions (extreme temperatures, entanglement dangers, overhead environment, dangerous chemicals) that the user will expose them to.

#UNDERWATERNATURALLY

3.4 - OCEAN REEF Scubapro Galileo HUD Extender Mount

OR025262

*pre-drilled frame
NOT INCLUDED!

Additional accessory available sold separately is the Mount for the Scubapro Galileo Heads-up Display computer. Professional mounts are highly recommended to assemble this as they are pre-drilled. OCEAN REEF will not be responsible for any damage to the mask/mask face seal or harm to the customer if drilling is performed by the user.

Locate the top extender frame holes, place the mount, tighten screws (not too tight to avoid damage).

Fit Galileo HUD as instructed in Scubapro manual, on the top, facing down, slot. The knob is NOT made to tighten, but to orient the display. Adjust all above steps testing visibility of HUD while placing mask on your face.

Loss or damages to equipment assembled on the mounts is not covered by warranty and responsibility of OCEAN REEF.

The user takes full responsibility to ensure the accessories assembled on the mounts are secure and will not be damaged/broken/lost.

OCEAN REEF provides high quality, durability tested mounts but does not warrant the specific use, dive conditions (extreme temperatures, entanglement dangers, overhead environment, dangerous chemicals) that the user will expose them to.

3.5 - OCEAN REEF Shearwater Nerd2 HUD mount for FFMs

OR025261

*requires Professional mount to be assembled on OCEAN REEF IDM.

#UNDERWATERNATURALLY

Loss or damages to equipment assembled on the mounts is not covered by warranty and responsibility of OCEAN REEF.

The user takes full responsibility to ensure the accessories assembled on the mounts are secure and will not be damaged/broken/lost.

OCEAN REEF provides high quality, durability tested mounts but does not warrant the specific use, dive conditions (extreme temperatures, entanglement dangers, overhead environment, dangerous chemicals) that the user will expose them to.

4 - MAINTENANCE, CLEANING, DISINFECTION, AND STORAGE

4.1 MAINTENANCE, CLEANING, DISINFECTION

General and visual inspection are related to the check that all the components and parts are not damaged, without any wear and tear. No damages must be detected in order to use the product.
Inspect prior to every use.

TYPE OF ACTION	FIRST USE	BEFORE EACH USE	AFTER A DIVE	MONTHLY
GENERAL FUNCTION CHECK	X	X		
GENERAL AND VISUAL INSPECTION	X	X		X
DISINFECTION		X	X	
CLEANING / RINSE			X	

Table 1: Periodic maintenance program

For optimum longevity of the product and the proper functioning of its parts we recommend rinsing the product thoroughly in fresh water after every use.

Cleaning frequency must ensure to the user a good protection and the right functionality. When using any disinfectant, be sure to follow the manufacturer's instructions for use. Follow this with a thorough rinse in fresh water, and allow the equipment to dry completely before use. Since some chemicals can damage surfaces, they should be tested prior to use for each individual item or surface.

For an efficient cleaning of any part of the equipment, soaking in clean warm water (around 40°C/100°F) adding a colourless not perfumed hand washing liquid soap is suggested.

Afterwards, rinse deeply under fresh water to remove any soap residual and allow the perfect drying in a safe and clean environment.

4.2 STORAGE

The product should be stored in a ventilated environment preferably between -10°C (14°F) and +50°C (122°F), avoiding the direct action of sunlight, pollution, dirt, etc.

5 - WARRANTY

1. This product is guaranteed to be free of material or manufacturing defects for a period of 24 months from the time the unit is purchased.
2. For the duration of the above mentioned warranties, the Company's responsibility is limited to replacement of any parts that are defective and that have not been used incorrectly or handled negligently. The product must be returned to the outlet from which it was bought.
3. Even during the warranty period, this warranty shall not be valid where:
 - Damage was caused by incorrect handling or carelessness.
 - Damage was caused by the mask falling after it was purchased.
 - Damage caused by fire, earthquake, floods, lightning, or other natural disasters.
 - The product has been tampered with or has been repaired/serviced with non-original parts.

You can find a copy of this and other OCEAN REEF manuals online on our website. In order to limit our paper consumption, and as a part of our environmental friendly and responsible approach, OCEAN REEF recommends, in case you lose or damage this manual, to consult the documentation present online rather than print it out.
